

291-95 KITRP

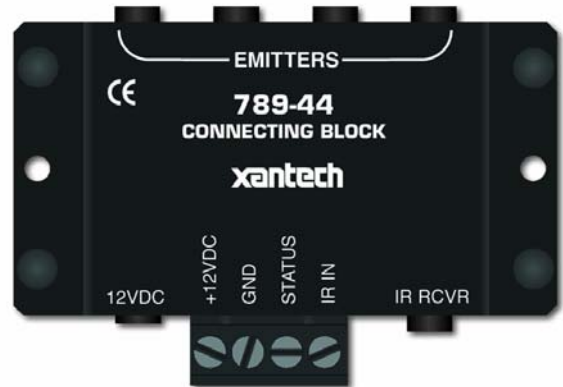

Plasma Friendly Shelf-Top IR Receiver

DESCRIPTION

The 291-95 KITRP comes with everything needed for a complete IR repeater system. The 291 series are small, shelf-top IR receivers with a multitude of applications. Use them as an inexpensive method of repeating IR commands when wall-mounting an IR receiver is not practical.

The 291-95 IR receiver is specifically designed and engineered to filter out interference from plasma displays.

INCLUDED ITEMS

ITEM A: (1) 291-95 Plasma Friendly IR Receiver

ITEM B: (1) 784-44 Connecting Block

ITEM C: (4) 283M Mouse Emitters

ITEM D: (1) 781RG Power Supply

INSTALLATION INSTRUCTIONS

STEP 1:

Plug in the 2.1mm Coaxial power plug of the 781RG Power Supply (**ITEM D**) into the jack labeled 12VDC on the 789-44 Connecting Block (**ITEM B**).

Plug the AC end of the 781RG Power Supply (**ITEM D**) into an 'un-switched' 120V AC Line outlet.

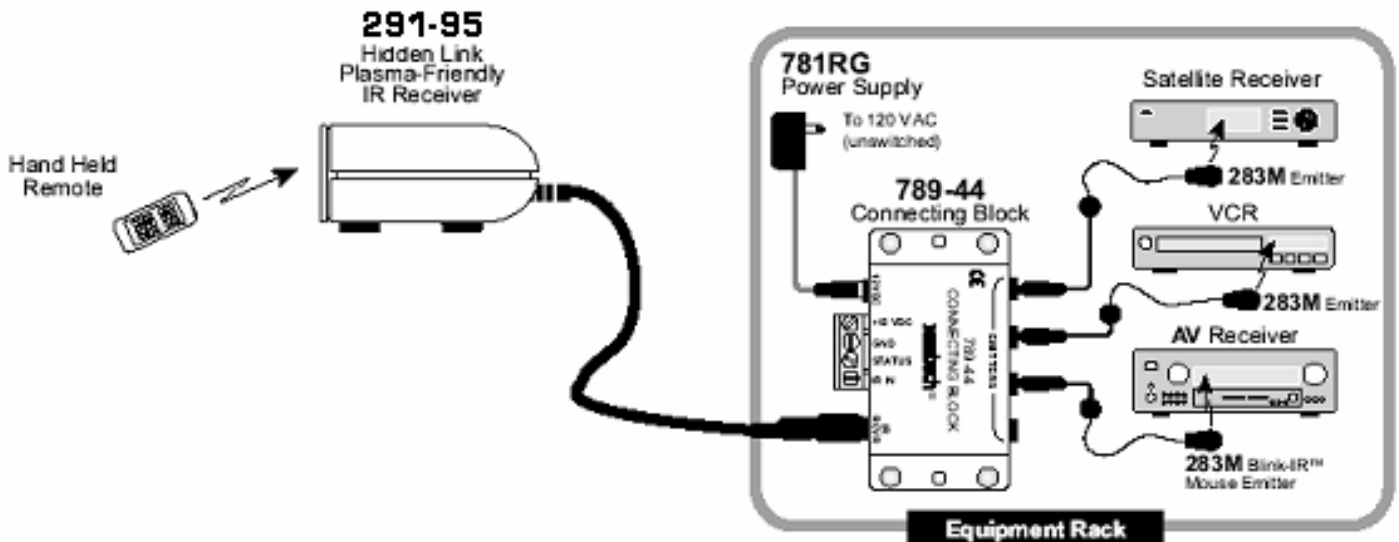

STEP 2:

Plug the 3.5mm stereo mini plug from the 291-95 (**ITEM A**) into the IR RCVR input on the 789-44 Connecting Block (**ITEM B**).

STEP 3:

Plug in the 283M Emitters 3.5mm mono mini plug (**ITEM C**) into the jacks labeled EMITTERS on the 789-44 (**ITEM B**) and affix the opposite end of the IR Sensor Window of the controlled equipment.

Note: Please see the 291-95 Instruction Manual for proper placement.
